

THROUGH LINE OPEN TO CHICAGO

Heavy Traffic Over the
Janesville & South-
eastern Road.

FOUR NEW TRAINS

This Makes a Train Every
Hour Between Windy City
and Bower City.

EMPLOYEES KEPT BUSY

Today was a busy one at the Chicago, Milwaukee & St. Paul railway station. From 9:30 a. m. to 10:45 a. m. passenger trains were coming and going in every direction. All this rush and bustle was caused by the opening of the Janesville & Southeastern railroad, this being the first day that the regular passenger service was inaugurated. People from all parts of the country took advantage of the opening of the new line to take a trip to Chicago by a route that was not familiar to them.

Six Trains At One Time
At one time this morning six passenger trains were at the St. Paul station, within twenty minutes of each other. Superintendents, roadmasters, conductors, baggage men, were hustling around seeing that all baggage and passengers got into the right trains. In spite of all that could be done several passengers missed their trains and had to wait for the next one.

Supt. J. C. Eldredge was at the station taking charge of the work and had his hands full seeing that all went off smoothly.

Ticket Agent Meltzer was kept busy answering questions about the change in time and in handing out tickets. The numerous changes that were made today put even the old seasoned travelers at a loss to find out when their train left.

In a day or two the officials of the road will be in better shape to handle the trains at this point. They will know just what to expect and how to take care of the crowd.

Milk Train Out First
The first train pulled out promptly at 5:40 this morning for Chicago. It is what is known as the milk train and makes all the stops between this city and Chicago.

The next train left at 7:35 and was made up of a parlor car. The cars are all vestibuled and it made a handsome appearance as it pulled out. Quite a number of Janesville people took advantage of the opening of the road and went on this train which bids fair to be very popular with the people of this city.

The 10:10 was a vestibuled train of four coaches, a parlor car and baggage cars. It was well filled when it pulled out for Chicago.

The trains from Chicago, Milwaukee & Mineral Point were all on time and none of the trains left for their destination more than a minute or two late. The officials were anxious to have all trains arrive and depart on schedule time and their efforts were highly successful. The through trains all carried an extra conductor who rode in the engine and piloted the trains on their first trip.

Roadbed in Fair Condition
Assistant General Passenger Agent A. F. Merrill came up from Chicago this morning over the new line. He was much pleased with the road bed which at the present time is good for fifty miles an hour.

The congested conditions at the passenger station this morning shows that it is absolutely necessary for the company to have more tracks and more station room. Under the present conditions the platform is crowded with tracks and baggage to the great inconvenience of the traveling public. They will be unable to do away with this trouble until the new passenger station is built and the long platform and the sidetracks give them the much needed room.

BRITISH LOSSES WERE MORE SEVERE

The Battle at Vlakfontein on May 29
Proves to Have Been a Great
Victory for Boers.

London, June 3.—According to a dispatch from Kitchener the British losses in a fight at Vlakfontein May 29, was more severe than was at first reported. Kitchener reports the casualties included two lieutenants killed and one missing.

Dr. Mackay Is Dead
Toronto, Ont., June 3.—A cable dispatch from Formosa announces the death of Dr. Mackay the great missionary.

PROBABILITY OF EXTRA SESSION

Congress Likely To Be Called Together to Legislate for the
Philippines.

Washington, D. C., June 3.—The talk of an extra session of congress to legislate for the Philippines, has been stronger today than at any time since the decision of the supreme court that Porto Rico is a territory of the United States and there can be no imports from democratic territory.

The president and secretaries Root and Hay, Attorney General Knox and Senators Spooner and Platt have carefully considered the language of the court in the decisions handed down last Monday and they are unable to find any warrant for the civil government about to be inaugurated in the Philippines assuming the right to levy customs taxes under the power conferred by the Spooner act. Senator Spooner does not believe the act which bears his name gives the president power to levy other than local taxes in the Philippines. The court has declared that Porto Rico is a "territory" of the United States, and it will no doubt declare that the Philippines are the same as soon as a civil government is inaugurated there.

Denies a Chinese Rumor
London, June 3.—The Chinese minister to England denies that Emperor Kwang Hsu will make a tour of the world.

DOWIE PROCLAIMS HIMSELF ELIJAH

SAYS HE IS THE SECOND INCARNATION OF THE PROPHET.

Declares He Will "Subjugate All Government"—He Derides John the Baptist, and Sets Himself Up as "Messenger of the Covenant"—Grand Jury Did Not Indict Him.

Chicago, June 3.—"I am Elijah, the prophet, who appeared first as Elijah himself, second as John the Baptist and who now comes in me, the restorer of all things. Elijah was a prophet, John was a preacher, but I confine in myself the attributes of prophet, priest and ruler over men. Gaze on me then; I say it fearlessly. Make the most of it you wretches in ecclesiastical garb. I am he that is the living and spiritual embodiment of Elijah, and my coming to earth a third time has been prophesied by Ma'achi, by God Himself, by His Son Jesus, by Peter and three thousand years ago by Moses. All of those who believe me to be in the truth will please stand up. And over 3,000 people rose to their feet and greeted the blasphemous declaration with cheers and handclapping.

John Alexander Dowie, true to his promises, made this statement from the platform of the Auditorium yesterday in the presence of 5,000 people. It was the culmination of a frenzied speech in which he denounced everybody and everything not "in Zion," cursed the pope and the Roman Catholic church, spat literally upon Masonry, the newspapers and bankers of Chicago and raged and tore up and down the stage like a madman.

"Understand well what I mean," he continued, striding down to the edge of the platform and mopping his back hair with a wet handkerchief. "I will take no counsel in my methods of government. I have come to proclaim theocracy pure and simple, the government of God by God and for God, and I will never rest until all other forms of government have been driven from the earth.

"You talk about your democracy. Bah! I tell you democracy has been tried in the balance and failed. The government of the people by the people is twaddle. I stand loyal to the flag and countenance no revolution, but I demand that the name of God must be placed foremost in the constitution of the United States, and the supreme authority of God over all things must be recognized."

No bills were voted by the grand jury Saturday in the case of John Alexander Dowie, H. Worthington Judd, and Deaconesses Bratsch and Sueicher.

After deliberating for more than an hour the inquisitors decided that neither Dowie nor his constituents could be held criminally responsible for the death of Mrs. H. W. Judd.

Francis Murphy League
The Francis Murphy Temperance League held a splendid meeting at the Y. M. C. A. building yesterday afternoon. Vice President Fred Holden presided and able addresses were made by Rev. W. A. Hall, George West, John Jones, Al. Smith and others. Mr. West made the principal address of the afternoon and he was frequently applauded.

Peter L. Myers of the Myers Grand leaves tonight for Hudson, Wis., on a brief pleasure trip.

EDWARD E. MILLS OIL INSPECTOR, BURLINGTON MAN GETS THE JOB

Mr. A. Thompson of Sparta and F. M. Jack of Milwaukee Appointed School Inspectors—State Appointments Made by Gov. La Follette.

Madison, Wis., June 3.—Governor La Follette this morning appointed Edward E. Mills of Burlington, Racine county, state supervisor or inspector of illuminating oils to succeed George F. Cooper resigned. Before the appointment of Mr. Cooper which was made by La Follette in January the position was held by H. D. Tanner of Kankana, which under the old law was worth from \$4,000 to \$7,000 in fees. Under the law passed at the recent session of the legislature the place pays a salary of \$1,500.

RELICS FOUND IN CORNER STONE; PLACED THERE ON MAY 25, 1865

Interesting Find Today While Digging About the
Foundations of All Souls' Church—Papers
and Things Deposited There.

Workmen employed in tearing down the walls of the "Church of the Messiah" better known as All Souls' church, lately purchased by Dr. E. F. Woods and being remodeled by him for a residence came across the corner stone of the church. The stone was located in the buttress at the south east corner of the church and was in a fine state of preservation. The hollow in the stone contained a tin box which was somewhat rusted along one edge.

Mrs. E. F. Woods was present when the stone was uncovered and took possession of the tin box which was deposited in the stone at the time of its dedication May 25, 1865. She took the box to her home and now has the contents which were well preserved as if they had been placed there yesterday instead of thirty-seven years ago.

The box contained the following:
Three copies of the Weekly Gazette, dated April 6-13-20, 1865. A leaf from the Daily Gazette of April, 1865 which contained a copy of the sermon delivered by Rev. S. Farington on the death of Abraham Lincoln. The papers bore the names of S. Scott, Jr., F. Hemmens and J. Hunt and were undoubtedly deposited by them.
A copy of the Christian Inquirer of New York, dated April 20, 1865. A copy of the charter of Janesville dated 1853.

PLATINUM QUOTED AT \$36 AN OUNCE

The Precious Metal Called "White Gold" is Rising in Price, and Supply is Limited.

Chicago, Ill., June 3.—A scarcity of "white gold" known in chemistry and commerce as platinum, is causing concern in the medical, electrical and photographic worlds. For five years the price has steadily soared toward the prohibitive mark. Today it was quoted at a higher price than ever since its discovery, and every prospect points to still higher prices.

The alarm caused by this condition is world wide. A few months ago the German Reichstag reconsidered a measure prohibiting the use of the precious metal in photography. The advocates of the bill claimed that as platinum was absolutely essential in medicine, purposes which were not necessary should be stopped. The bill was not passed, but its introduction called attention to a condition which is said by scientists to be becoming serious.

Platinum is quoted at \$36 an ounce which is nearly twice as high as gold. Five years ago it brought about \$5. Today the St. Louis & Halsek Electrical company is said to use about one-fifth of the output of the world. Since the flooding of the platinum mines in the Transvaal, which occurred after the breaking out of the Boer war, the world has had to rely on Siberia for its supply of the white metal. This supply is not increasing, but the demand for the metal is.

JUMP IN PRICE OF BEEF TODAY

It Went Up from Two to Three Cents a Pound in New York—Operating a Squeeze.

New York, June 3.—The price of beef jumped from two to three cents a pound here today. Butchers say the scarcity of beef is the cause. It is intimated, however, that the beef trust is operating a squeeze.

Chicago, June.—The rise in beef in New York, cattle men say, is due to a general advance in the cattle market, caused by an unusually active demand from Europe.

FARMERS TO HONOR GEO. H. PHILLIPS

Grangers Will Give a Reception to the "Corn King" at Convention at St. Paul June 10 to 15.

St. Paul, Minn., June 3.—Farmers of the west and northwest purpose to demonstrate the good feeling and high regard they have for the "Corn King" George H. Phillips of Chicago.

At the coming convention of the Allied National Farmers' Association of America, under the auspices of the National Grain Growers' association in St. Paul, June 10, to June 15, a public reception and banquet is to be tendered Phillips, who has promised to attend the convention and deliver an address. From fifty to one hundred thousand people are expected to attend this convention, which has for its object the organization of the farmers of the world into an international society for the mutual education and enlightenment and preparation for defense against trusts and combines that handle their products.

Among other speakers on this occasion will be secretary of agriculture, Wilson, Governor Van Sant of Minnesota, Archbishop Ireland, Joseph Leiter, Marquisse de Vogne of France, James J. Hill, Senator Mason, ex-Governor Lind of Minnesota, Prof. Gustav Ruhland of the University of Freiburg, Switzerland, and others prominent in the railroad and grain world.

PENSION PLAN OF ST. PAUL ROAD

SCHEME FOR PROTECTION OF RAILWAY EMPLOYEES.

Relief and Pension Department Will Be Put in Operation at Beginning of Fiscal Year Next September—Amount Given Will Depend on the Salary Received.

President Earling and the executive committee of the Chicago, Milwaukee & St. Paul road have approved application for the establishment of a pension and relief department which shall embrace the entire system. At the next meeting of the directors the matter will receive the approval of that body and the department will be put into operation at the beginning of the fiscal year in September.

The plan which has been adopted combines the relief and other features into one department and makes participation in the latter department upon membership in the former. It places within the grasp of between 30,000 and 40,000 employees the means of obtaining aid when sick or incapacitated and of providing the means of support for their families when they retire from service.

The pension to which the employees will be entitled depends upon the salary received and so does the amount they contribute to the department. The contributions have been fixed upon a sliding scale so that the men of small salaries will not contribute nearly so much in proportion as those of large salaries. In case of accidents or sickness, however, the men who contribute more to the department than others will receive benefits accordingly.

In general the average amount of pension received will be about \$3 1/3 per cent. of the salary at the time of retirement and in all cases will be one-half of what the member would receive from the relief department. For example, if an employee were getting \$100 per month he would contribute \$4 per month if he assisted in operating trains and \$3 per month if engaged in other operations. If incapacitated he would receive \$2 per week, and if pensioned \$1 per week.

An additional feature is a provision which permits his beneficiaries to receive from \$250 to \$2,500 in case of death from accident or natural causes the amount to be graded according to the class in which he belongs.

MORMON WORKERS FIND FEW CONVERTS

Weeks of Hard Labor in the Bower City Has Reaped Them Little Reward.

Janesville is not a good place in which to secure converts to the Mormon faith. After weeks of hard work, the two elders that have been holding meetings in this city nightly on the street corners are about ready to give up and seek greener fields.

The people of Janesville and of Rock county are not of a class that are in sympathy with the Mormon religion or their customs. A great majority of the people of this city have religious beliefs that the Mormons cannot improve upon, and until they can convince the people that they have something better they will get but few converts.

JUNE WEDDINGS IN SWELLDOM

Mrs. Dahlgren and Harry Lehr Were United in Gotham Today.

MISS FIFI POTTER

Beautiful and Crilliant Young Woman Married to Jas. A. Stillman, Jr.

DALY-GERALD UNION

New York, June 3.—Mrs. John Vinton Dahlgren was married at noon today at the Roman Catholic church to Harry Lehr. The bridegroom himself was the only person not a millionaire or of the family of a millionaire in attendance at his own wedding. With the pride of the conqueror he pointed out that the fortunes of the six men who acted as ushers reached close to a billion. The men were Clarence Mackay, W. K. Vanderbilt, Jr., George Gould, O. P. H. Belmont, Thomas Wamaker and John Jacob Astor.

With the daring of that most daring of human kind, the social innovator, he called attention to the fact that his ushers are married men. It is said—with no denial on his part—that Mrs. Dahlgren also was following when she decreed that she should be married in the maiden's color of white. The only sign of her recent widowed state to be noticed in her costume was the absence of a veil.

A Remarkable Young Man

"A remarkable young man" is the term usually applied in describing Harry Lehr, who today led to the altar Mrs. John Vinton Dahlgren. Mr. Lehr's home was originally in Baltimore, where his father came as German Counsel and where his family still lives. He was an unknown wine merchant until a few years ago when he waded in a public fountain with Mrs. "Freddie" Gebhard. This incident gave him the title of an original young man and it was not long afterwards that Mrs. Elisha Dyer introduced him to the most exclusive circles of New York. Next he became private secretary to Mrs. Astor and set all Newport laughing one day by escorting Mrs. Stuyvesant Fish, Mrs. Harman Oelrichs and a rag doll around the streets of that fashionable resort. Mr. Lehr, however, has no fortune at present save his entertaining personality. His bride is worth anywhere from one million to ten million. Mr. Lehr and Mrs. Dahlgren are about of an age.

Potter-Stillman Wedding

Miss Fifi Potter, a beautiful and vivacious young woman, was married to James A. Stillman, Jr., in Grace church this afternoon. Bishop Potter, an uncle of the bride, performed the ceremony, assisted by Rev. Dr. Huntington, rector of the church. Miss Potter had only one bridesmaid, Miss Alice W. Babcock. The reception was at Bishop Potter's residence, 10 Washington Square, North.

Two More Swell Weddings

Tomorrow Miss Mary Daly, a daughter of the late Marcus Daly, will be married to James Watson Gerard, a son of the late James W. Gerard of this city. It will be a small wedding as the bride's family is in mourning for Mr. Daly. Bishop Potter will perform the marriage ceremony in the drawing room and after an informal reception there will be a wedding breakfast. Miss Daly's sister, Miss Harriet Daly, will be the maid of honor. There will be no bridesmaids. Summer Gerard will attend his brother as best man.

In Washington on tomorrow at the home of Admiral Hichborn, his daughter, Miss Martha Hichborn, will be married to James G. Blaine. Rev. Dr. Radcliffe of the New York avenue church. Mr. and Mrs. Blaine will sail for Europe on Tuesday next to remain for about three months.

MARTIAL LAW AT CAROUNNA, SPAIN

Troops Fired Upon a Mob in the Street, Killed 18 and Wounded Many More.

London, June 3.—The civil guards at Carounna, Spain, according to a dispatch received this morning, fired upon a mob in the streets, killing eighteen and wounding many. Martial law has been proclaimed. Business is at a standstill, the newspapers suspending publication. Labor troubles cause the present condition of affairs.

Mr. and Mrs. J. C. Stanton left this morning for an extended trip through the Eastern states and the Pan-American. Mrs. D. S'awson of Minnesota will accompany them. They expect to be gone about three months.

CHURCH GLEANINGS.

The annual meeting of the First Congregational church and society will be held in the lecture room of the church tomorrow evening, at 7:30 o'clock at which time the reports of officers will be received, two trustees will be elected to succeed J. M. Whitehead and A. E. Matheson, whose terms of office expire at that time and one trustee to fill the vacancy caused by the removal of Dr. L. C. Hedges from our city. Such other business will be transacted as may properly come before the meeting.

The subject of the mid-week meeting at the Congregational church will be the necessity of the missionary spirit to a church or a life. Matt. 10:5-10.

The Young People's society of the Congregational church has invited some of its former members to lead the meeting of the month. It is hoped that many will take interest in attending.

Children's day will be observed at the morning service of the Congregational church next Sunday.

The Junior choir of the Congregational church will hold its regular rehearsal on Friday afternoon at 4:00 o'clock.

Parents who are expecting to have their children baptized at the Congregational church Sunday are requested to send in their names as soon as possible to the pastor.

The Children's choir of the Court street M. E. church meets on Monday afternoon at 4 o'clock. D. D. Bennett has charge.

The stewards of Court street M. E. church will meet on Friday evening. Meeting for the rudimentary study of music under the direction of D. D. Bennett at Court Street M. E. church Friday evening at 7:30 o'clock.

The Woman's Foreign mission circle of Court Street M. E. church will meet with Mrs. Blodgett, 204 Park Place, Wednesday afternoon at three o'clock. Both members and friends are invited to attend this meeting.

Children's Day will be observed at Court street M. E. church next Sunday evening when the children of the Sunday school will give the program. Monthly business meeting of the official board of the First M. E. church on Monday evening at 7:30 o'clock. Let there be a full attendance.

Regular meeting of the Ladies' Aid society of the First M. E. church on Tuesday afternoon at two o'clock in the south room of the church parlors.

Owing to commencement exercises this week, the regular prayer meeting of the First M. E. church will be held on Friday evening.

Children's Day services next Sunday at the First M. E. church. Special program by the children of the Sunday school in the evening.

Next Sunday evening Rev. Richard M. Vaughan, pastor of the Baptist church, will begin a series of Sunday evening sermons, the general topic being, Crises in Great Lives. The series is as follows: June 9—Moses at Horeb. June 16—Samuel at Shiloh. June 23—Isiah in the Temple. June 30—John at the Jordan. July 7—Paul near Damascus.

The King's Daughters of the Baptist church meet Monday afternoon at two o'clock in the church parlors. The Ladies' Aid society of the Baptist church meets Wednesday morning at ten o'clock in the church parlors. All ladies of the church are cordially invited to be present.

The Helpful Circle of the Baptist church will meet in the church parlors on Thursday afternoon at two o'clock.

The subject of the mid-week service of the Baptist church will be Christian courage. Reference Acts 4:13.

The Woman's Missionary society of the Baptist church will meet with Mrs. D. Conger, 215 Terrace street on Friday afternoon at three o'clock. Leader, Mrs. H. C. Gere. Subject: Japan. All women of the church are invited.

Children's Day will be observed at the Baptist church on June 16th. Exercises by the Sunday School in the morning. Special sermon and baptism in the evening. The entire day to the children.

The congregation of the Presbyterian church will meet on Monday evening at 7:30 o'clock for the purpose of electing successors to the following officers: Elders—A. A. Jackson, M. H. Soverhill and Sam'l Wadell; Trustees—E. M. Calkins and I. F. Wortendyke.

The Ladies' Aid society of the Presbyterian church will hold its last social meeting before the summer vacation on Friday afternoon at two o'clock. All of the ladies of the congregation are cordially invited.

Next Sunday—Children's Day—will be observed at the Presbyterian church. The children of the Sunday school will have the larger share of the services, both morning and evening. The primary graduating exercises will be given at the morning service. The boys choir will sing morning and evening. Parents may present their children for baptism at the early part of the service next Sunday morning.

The Fellowship social of the Presbyterian church will be postponed until Tuesday evening, June 11th, at which time a banquet will be held for all the members of the church and congregation.

The boys' choir of the Presbyterian church will meet Tuesday evening at 7:15 o'clock.

The topic for the prayer meeting service at the Presbyterian church will be "Prayer and Work."

of West Bend is making great preparations for the event and it promises to equal if not exceed all former events of its kind.

The Aluminum manufacturing company of Two Rivers will close up shop each Saturday afternoon until Oct. 1. The employees of many of the other shops of the city have requested the owners to do likewise and the plan will be generally adopted.

J. S. Thompson, manager of the Anson-Hixon Sash and Door company, tendered his resignation to that company. It took effect June 1. Mr. Thompson will leave this week for Grand Rapids, where, with a number of citizens of that town, he will form a company for the manufacture of boxes.

MATCH PLAY FOR POSITION ON TEAM

Challenge for Matches Flying Thick and Fast Among Golfers on Buckleton Links.

Match play for position on the Mississippi Golf club has aroused considerable interest among the members. It was originally intended to keep the team limit at sixteen but on account of the number of players anxious to compete for position the limit has been placed at twenty.

There are now eighteen men on the team and next two to play for position will fill the vacant places. During the last week numerous changes have taken place in the positions of the players and the team as it now stands is as follows:

1, F. P. Baker; 2, H. H. McKinney; 3, Leo Brownell; 4, J. P. Baker; 5, F. E. Fife; 6, Chas. E. Dunn; 7, O. Sutherland; 8, H. G. Carter; 9, S. D. Tallman; 10, A. C. Jenkins; 11, Charles Achterberg; 12, H. S. McGiff; 13, H. R. King; 14, George Bauman; 15, Albert Schaller; 16, F. C. Grant; 17, F. Puhler; 18, H. L. McNamara.

Robert Taylor, the professional, will be here about the middle of the month and will stay until after the tournament in July.

ODD FELLOWS TO VISIT MILWAUKEE

Large Delegation Will Leave Tomorrow Morning to Attend the Grand Lodge.

Quite a party of Odd Fellows and Daughters of Rebekah will leave tomorrow morning at 7 o'clock for Milwaukee where the Grand Lodge of the Odd Fellows and the State Assembly of the Rebekahs is in session June 3 and 5. The delegates who will represent the local lodges are Wisconsin Lodge, No. 14, I. O. O. F., C. E. Brown and A. E. Pond. Janesville City Lodge, No. 90, I. O. O. F., G. H. Erredge, I. B. Merrill, Jas. L. Davey. America Lodge, No. 26, D. of R., Mrs. M. H. Morse and Mrs. Dave Brown. Janesville Lodge, No. 171, D. of R., Mrs. W. H. Parish and Mrs. E. A. Trow. Among the others in the party will be Mrs. C. E. Brown, James A. Fathers and W. E. Clinton.

JANESVILLE MARKET PRICES

Sales of Seed Leaf. Sales of seed leaf tobacco reported by J. S. Gans' Sons, Tobacco Brokers, No. 128 Water street, New York, for the week ending June 3, 1901. 300 cases, crop of 1899, Wisconsin Havana Br., at 13 cents. 300 cases, crop of 1899, Pennsylvania Seed Leaf, at 12 to 13 cents. 100 cases crop of 1899 Gebhardt's at 14 cents. 300 cases, crop of 1899 Zimmers, at 14 to 15 cents. Total, 1,000 cases.

ENJOY A PLEASANT EVENING OF MUSIC

The Thirteenth Pupils' Recital Under the Direction of Mrs. Clarence L. Clark Saturday Night.

A pleasant evening of music was enjoyed Saturday evening at the home of Mrs. Clarence L. Clark by a company of relatives and friends of her piano pupils. The parlors of the pleasant home were filled and the program given was listened to with interest and pleasure. It was the thirteenth pupils' recital which has been given under Mrs. Clark's direction and as usual those who appeared on the program gave evidence of the careful training which they had received. Mrs. Clark has every reason to be proud of her pupils.

The pupils were charmingly assisted by Mrs. S. T. Learned who sang two solos, "Lassie" by Tipton, and "Oh, That We Two Were Maying" by E. Nevin. She also responded to one encore and the selections were all thoroughly enjoyed. Mrs. Clark played her accompaniments and also played second piano for the piano selections given by Misses Hallie Howard and Charlotte Putnam, both of which were among the finest numbers on the program.

The pianists were also assisted by Robena Kellner and Chester Morse, who, by request, repeated the duet which they sang at the May festival given by the children's choir of the Congregational church. Mrs. W. S. Jeffris played the accompaniment and Master Morse sang Kuecken's "The Hunter's song," beautifully.

Mrs. Clark's pupils who appeared on the program were Ruth Charlton; Mabel Charlton, Benjamin Eller, Marie Murphy, Carrie Inman, Lucy Estes, Julia Lovejoy, Margie Nicholson, Hazel Woodstock, Fred Wilkerson, Hallie Howard, Helen Estes, Cora-vieve Shoemaker, May Merritt and Charlotte Putnam. All acquitted themselves creditably.

Half the ills that man is heir to comes from indigestion. Burdock Blood Bitters strengthens and tones the stomach, makes indigestion impossible.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Eclectic Oil relieves the pain instantly. Never safe without it.

"Little Colds." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption.

Itching piles? Never mind if physicians have failed to cure you, Try Doan's Ointment. No failure there. 50 cent, at any drug store.

Our Envious Neighbors. The Beloit Free Press has this fling at Janesville in comment on the Beloit-Wisconsin game at Athletic park on Memorial day.

"If there were any Janesville people inside the grounds outside of newspaper reporters and policemen they were very hard and few to see. Outside the grounds however they were in their element. Every tree overlooking the enclosure held its load of human Janesville fruit and every foul ball over the fence was quickly stolen. Ten or twelve balls were lost in this manner."

"Insist that you get Mrs. Austin's Famous Wheat Food, makes a good breakfast, a good dessert, good all the time."

STATE OF OHIO, CITY OF TOLEDO, Lucas County. Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

Sworn to before me and subscribed in my presence, this 5th day of December, A. D. 1896. A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

Leave America to Kill Kings. Marcellus, June 3.—It has been ascertained that the two anarchists, one a Spaniard and the other an Italian, who were arrested in Madrid on suspicion of being implicated in the regicide plot, arrived here as steerage passengers from America May 11.

Worth Knowing

It is worth while to know that we carry the largest, cleanest and most complete stock of drugs, paints, oils, glass, etc., in southern Wisconsin. No matter what you want, we are sure to have it, and in large quantities. We can save you money on anything in our line.

Remember The Two Stores.

PEOPLE'S DRUG CO. Main and Milwaukee Sts. KING'S PHARMACY Jackson and Milwaukee Sts. Geo. E. King & Co., Props.

J.M. BOSTWICK & SONS. THE BIG STORE 20, 22, 24, 26, 28. S. MAIN ST. JANESVILLE, WIS. WE KEEP THE QUALITY UP

Shirt Bargain.

50 fancy skirts, made of black ground zouave sat-teen with colored stripes, being a firm material particularly adapted for skirts. They are made with a wide flounce of graduated cording and pleating. The actual value of these skirts is \$3.00, but we bought them at a low figure and our customers get the benefit. We offer them while they last at \$1.78.

Serpentine Laces.

There is a great demand at present for the new serpentine effects in laces. Have hard work keeping them in stock. A recent large shipment puts our stock in very fair condition. White, black and linen color we show in many beautiful styles.

Black French Laces

Many pretty patterns in this popular lace in 1, 1 1/2 and 2 inch widths with insertion to match.

Val. Laces.

Just received some lovely Valenciennes Laces in matched sets. Patterns are new and plenty of them. We can please you.

New Shirt Waists

The last few days we have received several shipments of shirt waists. Beautiful all white waists in a large variety of pretty styles at \$1 to \$5, and an unusually desirable lot of colored waists, at 50c to \$3. Also have the all linen waists in natural color that are so popular. We are agents for the leading manufacturers and are having great success with their lines. Styles are pleasingly new, workmanship first-class, and they fit well; we are receiving several shipments each week and each shipment brings new styles.

Summer Parasols.

You will find our collection of parasols and interesting one. In addition to the many choice creations in sun shades for women, we show dainty things for children, and start them as low as 15c. If you want the little girl pleased, a parasol's the thing for her. They work like a charm.

It is an Embarrassing Predicament for a man to have company and nothing in the house to treat his friends with, but if you keep a case of

AMUSEMENT NOTES.

Mr. Charles H. Yale is the inventor of a wonderful bicycle which is prominently used in the production of "The Evil Eye" which will be presented at the Myers Grand Monday, June 3rd, and he is as proud of the achievement as it is possible for a man to be, and justly so, for it is not only an entertaining feature in the play but a most practicable and useful machine in real life; in fact, too useful if one is to judge from the following adventure:

When "The Evil Eye" was playing at Philadelphia last Christmas week Mr. Yale resolved to mount the "wonderful wheel" and pay a visit to a relative living thirty miles from the city. The hour of noon found him in Fairmount Park, though which his journey took him. The pangs of hunger became evident, he determined to call into play the "kitchen" of the wheel, and to incidentally astonish the Quakerites with the progress of human invention. In this his success was complete. He was soon the center of a crowd that would do credit to a presidential campaign and he could not resist the temptation to invite everybody to sample the coffee. The invitation was accepted with alacrity. Presently, however, the clasp of a heavy hand upon his shoulder and a jerk which brought him nose to nose with a park policeman convinced Mr. Yale that the unexpected always happens.

He was not too gently informed that he was arrested for running a new fangled "lunch wagon," prohibited in public parks, and before he could explain he became impressed with the idea that although Philadelphia is supposed to be slow, some of the people can get a hustle on them when the occasion requires.

To add to his chagrin, the unsympathetic crowd made a running fire of uncomplimentary remarks and he realized the sad truth that hustle and dignity never go hand in hand.

After a fashion which can be best imagined, the limits of the park were reached and he was released with an admonition to "Get a move" on him.

Mr. Yale does not air the "wonderful wheel" any more in public. He is now content to permit it to fulfill its original intention on the stage and only there.

NEWS AND NOTES OF BADGER STATE

Jacob Sterner was drowned in the river at Prairie du Chien, Saturday night. He was 32 years of age and was fishing for clams when he fell in and met death.

Mrs. Sarah Hallan, who recently sued the village of Omro for \$2,500 damages for alleged injuries, received through defective sidewalks, was awarded \$750 by the circuit court yesterday.

J. E. Clayton, of Milwaukee, chairman of the Prohibition state central committee, was in Black River Falls Saturday and completed arrangements for a county rally, which will take place June 20, at Black River Falls. The entire county is invited and a big gathering is looked for.

The case of Eugene Buell, charged with assault upon his father with intent to kill, was brought before Judge Parrish at Hayward, but postponed, as Buell filed an affidavit of prejudice against Judge Parrish, who presided over the two trials of Buell for the murder of Fred Nelson.

At a meeting of the common council of La Crosse a resolution was introduced that the La Crosse Street Railway company run its cars until midnight instead of 10:30, as heretofore. The resolution was referred Superintendent Valler of the street railway company said that the company would not run cars between the north and south sides until midnight. The citizens are agitating the matter and a warm fight is likely to be the result of the refusal.

The government work of dredging and improving the La Crosse harbor which was left unfinished last fall, has been resumed at La Crosse. The big hydraulic sand pump, the second of its kind on the upper Mississippi, is being operated for the first time and works perfectly. Capt. Thompson, in charge of the government improvements on the upper Mississippi, said that the work would be completed in about two months.

It has just leaked out that one of Hayward's well known young ladies, Miss Bessie Skeede, was secretly married last February while on a visit to Minneapolis to E. A. Rydeen.

The Washington and Ozaukee counties firemen's associations will hold their annual tournament at West Bend on June 23. The department

CORN THE GREAT AMERICAN CROP; VAST FIELD OF 83,000,000 ACRES

**Marked Increase in the Commercial Uses of Corn,
Owing to the Perfection of Milling Machinery—Farmers' Side of the Question.**

Corn is the great, distinctive American crop. It belongs as much to this soil as does the red man himself. From the Mexican border to the hills of Maine, from the shores of Puget sound to the swamps of Florida, corn literally covers our country with a green and fruitful mantle. There is not a state in all the Union where Indian maize is not an important part in the commonwealth's agriculture.

This can be said of no other crop. Few of the men who cultivate this "majestic, fruitful, wondrous plant," few of those who handle it commercially, few who stake fortunes on its price fluctuations, have any conception of its significance to the American people and to their prosperity. The magnitude of its acreage and volume, the universality of its distribution over the favored soil of the United States, and its adaptability to human needs are little short of marvelous.

No wonder the most eloquent and picturesque governor Illinois ever had characterized it as "Royal corn, within whose yellow heart there is health and strength for all the nations!" The boyish dreams of Richard Oglesby were attuned to the symphony of the prairie winds making wild music among the millions of rustling corn leaves, as he plodded barefooted between the towering rows. He knew corn and realized its true value in that broad, vital sense which exceeds mere commercial limits and which inspired him to exclaim: "Standing upon the borders of this verdant sea I note a world of promise—and then, before half the year is gone, I view its full fruition and see its heaped gold await the need of man!"

The bigness of the Union's corn crop and the vital relation it bears to the prosperity of the American farmer and that of the country can only be grasped through the medium of figures, but these need neither be many nor tedious, and they should have a peculiar interest for every man whose heart is open to that which has large significance for his nation.

Draw a mental picture of a vast field of corn, 83,000,000 acres in extent, and you have a view of the consolidated cornfields of America. This is the present corn acreage. As a companion picture let the imagination depict a mountain of corn containing two billion bushels of the beautiful yellow cereal. This is one year's harvest from the great field—simply an average annual crop! The immensity of these figures may well stagger the imagination of the ordinary matter-of-fact man and cause him to ask: where and how is this monster harvest used? That the demand for corn should far exceed so prodigious a supply seems almost impossible. But the facts show that the world's call for corn is far outstripping, and in rapidly increasing ratio, this enormous output of this country's cornfields.

How this demand has grown to the point which it has reached, what are the certainties of the future development and what it means to the American people may be briefly suggested by a word of corn history. In all that may be said on this score, keep constantly in mind this fact: our two billion bushels a year is 80 per cent. of all the corn grown in the world! Up to 1896 we exported only three percent. of our crop—that is to say from 30,000,000 to 65,000,000 bushels a year. During that period the prices received by the farmer ranged from twenty cents to twenty-five cents a bushel, save as influenced by unusually short crops.

Beginning with the last decade of the last century, a marked increase in the commercial uses of corn began. The perfection of milling machinery, under the influence of American inventive genius, made possible the preparation from corn of a large variety of human foods. Cornmeal and the coarser corn bread, so popular among the colored people of the South, had, previous to that time been the main forms in which corn was utilized as an article of diet for man. With the new machinery the Indian cereal was reduced to the fineness of flour, and immediately this product began a career of growing popularity. Dainties of various and tempting kinds were devised, and flaked hominy, cornstarch and breakfast foods of which corn was the main foundation, came into general use.

This movement has steadily progressed until, today, thirty large concerns are engaged in the manufacture of food products from corn. An authority on this subject says that this cereal is now the basis of forty-seven food and 108 commercial products. Such has been the transformation wrought by the change from the old "burr" stones of the custom mill to the modern milling machinery! To all practical purposes this change in the utilization of corn as a food has taken place within the last six years.

Meantime, from corn has grown an industry of large proportions and national importance; the manu-

facture of "grape sugar" or "glucose." This recent industry now consumes from 50,000,000 to 60,000,000 bushels of corn each year, or more than double the capacity of all the glucose plants in existence five years ago. How much of this product has been paid for by foreign nations? This is an interesting question. In 1890 we exported 88,000,000 pounds of glucose, worth \$850,000; in 1896 the volume increased to 171,000,000 pounds worth \$2,772,000; and in 1900 we sold to foreign nations 220,000,000 pounds worth \$3,609,000. Meanwhile our exports of starch increased from \$475,000 in 1890 to \$2,604,000 last year. The volume of increase in the export of glucose and its products is only a fraction of the increase in the domestic use of these articles.

All of these recent developments in the demand for corn for commercial uses may be regarded, speaking by comparison, as merely incidental to the main volume of increased demand—that of the export trade of the yellow cereal itself and the meats produced by its feeding. Let us look back and see what the ocean vessels carried to foreign shores from the cornfields of the United States. The exports of corn for 1891 were 31,000,000 bushels, valued at \$18,000,000; in 1896 we sent across the water 100,000,000 bushels worth \$38,000,000; and last year we exported the splendid total of 210,000,000 bushels, which brought us \$85,000,000.

Cornmeal exports increased from \$947,000 in 1891 to \$2,148,000 in 1900. In addition we send abroad every year in corn-fed meats the equivalent of 300,000,000 bushels.

Though, as I have already indicated, corn is an important feature of agriculture in every state of the Union and commands a total acreage of 83,000,000, the great corn belt which supplies the commerce of the world is mainly confined to Ohio, Indiana, Illinois, Iowa, Missouri, Kansas and Nebraska. Iowa is entitled to the distinction of being crowned as the great corn state.

Not more than twenty-five per cent. of the corn raised on American fields goes, in its natural state, out of the counties in which it is grown. Here is the basis of America's supremacy in the production of meats, meat eaters of the civilized world. We consume more beef, pork and mutton than any other nation, and provide vastly more of these products than does any other country. Without our magnificent corn crop this achievement would be an impossibility.

One of the most important facts to be noted in attempting an adequate estimate of the significance and the future of American corn is this: the area suitable for corn production in this country today is almost wholly utilized. There can be no material enlargement in our cornfields unless the ground be taken from some other crop, and the extent to which this is possible is decidedly limited.

This being the case, the only material increase over our present corn production must come from improved methods of cultivation; and here again we quickly encounter practical and positive limitations. The corn crop now grown is no larger than in 1889, when we passed the two-billion point for the first time. There has been no material enlargement in the corn supply in the last twelve years. On the other hand, the last five years have witnessed a tremendous increase in both the domestic and foreign demand for corn. This is convincingly shown by a few facts covering the period from 1895 to 1900.

Looking back five years we see an increase in the annual (domestic) consumption of glucose amounting to 25,000,000 bushels a year, and in the export demands 113,000,000 bushels annually; the increase in the number of hogs slaughtered is 10,000,000, representing at a low estimate, 200,000,000 bushels in pork; in cattle slaughtered the increase has been 600,000, representing 60,000,000 bushels of corn a year in beef.

This makes a demand for 398,000,000 bushels a year for these four items—a splendid increase over the requirements of five years ago. Concurrent with this startling increase in the consumptive demand for corn and its products there has been, let it be remembered, no increase in the volume of production.

Our crop in 1889 was 2,112,000,000 bushels; in 1895, 2,151,000,000; and in 1900 it fell back to 2,105,000,000. These figures show 400,000,000 bushels increase in the demand for corn in the last five years, wholly apart from the increased demand for the yellow cereal as an article of human food—and this with a stationary production. All of these comparisons between supply and increasing demand take no account of the inevitable increase in population and the consequently increased consumption.

Very little acumen is required to see from this showing that we shall never again return to the old prices

for corn. In my opinion forty-cent corn will represent the minimum figure for the future. Contrast this with the fact that 1896 corn was cribbed by investors in Kansas and Nebraska at ten cents to thirteen cents a bushel!

Of course the country was then suffering from general and acute financial depression into which other elements entered; but it may be set down with emphasis that when the American corn crop demands its rightful figure, as it will in the future, prosperity will be far more general and the suffering entailed from financial depression much less acute.

The farmer side of the corn question may be stated in a sentence: the farmers in the corn states of America are more prosperous, have more ready money, better homes, better farms and enjoy more desirable social conditions than the farmers in any other agricultural belt in the world.—George H. Phillips, in the Saturday Evening Post.

Commencing June 1st and continuing until Sept. 30. Excursion tickets will be sold daily at \$4.50 for the round trip good until Oct. 31st. On Fridays and Saturdays good until following Monday at \$4.25 for the round trip including steamer coupons. For parties of 10 or more daily good for 8 days at \$3.30 for the round trip including steamer coupons.

THE RACE

Does not depend on the start but on the finish. It's staying power which carries many a runner to victory. It's like that in business. Many a man starts off in the race for business success with a burst of speed which seems to assure victory. Presently he begins to falter and at last he fails and falls. The cause? Generally "stomach trouble." No man is stronger than his stomach. Business haste leads to careless and irregular eating. The stomach and other organs of digestion and nutrition become diseased. The body is inadequately nourished and so grows weak.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It strengthens the stomach and so strengthens the whole body which depends on the stomach for the nourishment from which strength is made.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and all other narcotics.

Accept no substitute for the "Discovery." There is no medicine "just as good" for diseases of the stomach and allied organs.

"Your 'Golden Medical Discovery' has performed a wonderful cure," writes Mr. M. H. House, of Charleston, Franklin Co., Ark. "I had the worst case of dyspepsia, the doctors say, that they ever saw. After trying seven doctors and everything I could hear of, with no benefit, I tried Dr. Pierce's Golden Medical Discovery, and now I am cured."

Dr. Pierce's Pleasant Pellets cure constipation.

CURE YOURSELF!
Cure all ailments in 1 to 3 days. Guaranteed. No doctor's fee. Prevents Constipation. THE EVANS CHEMICAL CO. SINGAPORE, U.S.A.

Poisoned by Absorption

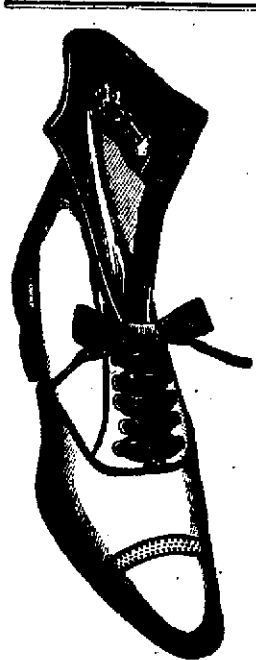

POISON OAK, POISON IVY, BARBER'S ITCH, LEAD AND BRASS POISONING, ETC.

Through the pores of the skin many poisons are absorbed into the blood, deranging the circulation and affecting the constitution as quickly and seriously as those generated within the system. Just under the skin are innumerable hair-like blood vessels, and connecting these with the skin are millions of small tubes or glands, through which the poison is conveyed to the blood system. During the spring and summer, while the skin is most active and the pores well open, we are much more liable to be affected by Poison Oak and Ivy and other dangerous plants. Workers in brass, copper, lead and zinc have their health impaired and the blood supply poisoned through the absorption of fine particles of these metals and the acids used in polishing and cleaning them. Tainting the fumes of lead give painters that pallid, waxy appearance of the skin. Barber's Itch is another disease that reaches the blood through the skin, and is a most obstinate one when it becomes firmly fixed in the system. After the poison has reached the blood and been disseminated throughout the system it is too late to resort to local applications. In many cases the blood is affected simultaneously with the appearance of the rash or eruption on the skin, and all efforts should be directed to the purification and building up of the blood. Ugly eruptions and sores will continue to break out in spite of salves, washes, soaps or other external treatment.

S. S. S. is especially recommended for poisons of this character. So completely does it destroy the effects of the Oak and Ivy that there is no possibility of its reappearance, and it is equally as efficacious in brass or lead poisoning or Barber's Itch; building up and purifying the blood and driving out of the circulation impurities of every kind, and removing every blemish, sore or eruption from the skin. There is no substitute for S. S. S.; it is the only purely vegetable blood purifier known, and the safest and best in all constitutional or blood diseases.

Our Medical Consultation Department.—If you desire any special information or advice about your case, write our physicians, explaining your condition, and they will carefully consider what you have to say and you will receive a prompt reply. Our physicians have made a study of blood and skin diseases, and you can have the benefit of their experience and skill without any cost to you whatever. Don't hesitate to write fully about yourself, as nothing you say goes beyond our office. We have a very interesting book on Blood and Skin Diseases, which we will be glad to mail free.

THE SENSE OF SIGHT.

People are so accustomed to the sense of natural vision that, like many other common blessings, the light of the eye is never appreciated, until sight is destroyed.

While this organ, called the eye, is wonderful in construction, and so powerful in action, that no mind can comprehend it, it is one of the most wonderful organs of the body, and its loss is always regarded as a great calamity, yet it is only one sense of vision, and there are others of even greater importance.

Talk with intelligent blind people, and you are surprised if not accustomed to them, to hear them tell about seeing people and objects, with as much enthusiasm as though they possessed natural sight.

They never refer to their blindness and are peculiarly sensitive if others refer to it.

Study their character as you talk with them, with a heart full of sympathy for their condition, and you soon discover that the eyes of the mind, and the vision of the soul, are shining orbs of light, so quick of conception, and so prompt to respond, that they grasp the situation that you have groped in darkness to discover.

They may not be able to tell you the height of a mountain, or the width of a stream, by observation, but they have scaled greater heights and broader expanses. It may trouble them to describe a face, but speak to them, and instantly there is photographed before their clear vision the whole man, and while you study the face, they analyze the voice, the mind, the character, the soul, and from the negative they produce both the internal and the external picture, and while the former may not always be correct, because imagination enters so largely into it, the latter is usually true to life, because the inner vision is so acute.

The loss of natural vision is a great misfortune, and blind people everywhere in this enlightened land, command the sympathy and kindly solicitude of everybody whose heart beats with normal impulse and humane instincts.

While the blind make the best of their condition, and under favorable circumstances look on the bright side of life, they are entitled to all the consideration and thoughtful care bestowed.

It is possible to have good, natural vision, with minds and hearts so blinded by prejudice, that the finer instincts are dwarfed and demoralized. That is a greater calamity than the loss of natural sight.

THE NEW ERA.

The opening of the Janesville & Southeastern branch of the C. M. & St. P. road today, is an event in the history of the city that should occasion rejoicing.

It means more to the permanent prosperity of the city than appears on the surface. For the first time in the history of the road Janesville becomes a trunk line station and the pulse of railroad life will be quickened by the presence of a main artery.

The company is investing capital liberally, and the improvements and facilities that increased business demands, will contribute largely to activity and substantial growth.

With both lines crossing the Spring Brook territory, it makes this part of the city the natural and available factory center, and in ten years' time, if the citizens display reasonable enterprise, Spring Brook will become a busy workshop, furnishing employment for hundreds of men, and homes for families by the score.

The new line adds largely to the railroad facilities of the city, and the train service, which was good before, will be augmented by a system second to none in the state. The little army of traveling men that have found Janesville a desirable place to live, will add to its ranks, and more homes will contribute to the prosperity of the city.

The most encouraging feature of the changed conditions, is in the fact, that there is no cyclone, or unusual commotion about it. There is no boom or crazy excitement, no syndicate speculations or farm lot enterprises, in fact there is nothing forced or unnatural about it.

General prosperity has gradually flooded the country and Janesville like many other cities, is in the path of the flood tide. While this is true, it is also significant, because it places the city, as well as the citizen, in touch with opportunity.

The spirit of enterprise that prompted the C. M. & St. P. company to build the new line, is a commendable spirit, and should be fully appreciated by Janesville people who share in its benefits.

The New York Tribune believes the formation of Browning clubs

furnishes pleasure to thousands, but do not strengthen the poet's place in English literature. That critic advises the study of Lytton's works in preference to the obscure poems of Browning.

Man's ability to create power is shown in the eight monster engines being built at East Pittsburg, each of which can generate 10,500 horse power and each consisting of 11,000 separate pieces, requiring thirty cars to transport them.

The Superintendent of the State School for Blind loses his political head because he is not a "trained educator," and the Superintendent of the School for Deaf at Delavan shares the same fate, because he is a "trained educator." That's political consistency without jewels.

Vacancy of brain, bankruptcy of the finer sensibilities, and an ambition to be mean and scurrilous, are not the best qualifications for journalism. The product of this sort of an equipment is of the pot house order. Janesville possesses the equipment and produces the product every morning but Monday.

If the Europeans wish to maintain their position in the world they will stop their foolish talk of boycotting America, and endeavor to become our equals in intelligence and push. It is because of these qualities that we excel.

Contrary to expectations, the Sultan has looked with favor on the Zionist movement; probably because the promoter has offered a large sum of money to secure permission to colonize Palestine.

That China has emerged from her trials with integral territory, and her national existence, is due almost entirely to American diplomacy.

May be Pettigrew has made enough money to re-enter politics. And Towne wants to make some money also.

Now we expect to hear that St. Louis thinks Chicago water caused the fire there the other evening.

Dr. and Mrs. Herron will probably not make a scrap book of their wedding notices.

It is hoped that Carnegie will not need any vacation in his present business.

The flag leads anyway, whether anything follows or not.

SLIPPED AND FELL
DOWN DEEP SHAFT

John Logerman, the sixteen-year old son of William Logerman of 701 Pleasant street, had a narrow escape from death this morning while employed in F. S. Baltes' warehouse. While working about the elevator he slipped and fell down the shaft to the floor a distance of about twenty feet. Dr. E. F. Woods was called, and found that his fall had fractured the end of the clavicle, where it connects with the breast bone, and drove the end against the wind-pipe. Fortunately the end did not pierce the pipe, but pressed it in so far that the young man experienced great difficulty in breathing.

British Soldiers Captured.

Cape Town, June 3.—Thirty-two of Wodehouse's yeomanry had an engagement with 700 Boers near Dordrecht. After one of the British had been killed and five wounded the detachment surrendered. They were subsequently released.

New Train Service to Chicago via C. M. & St. Paul R'y.

Commencing Monday, June 3rd, the new Chicago and Janesville line will be open for traffic, and the following passenger service put into effect: Leaving Janesville at 5:40 a. m., 7:35 a. m., 10:35 a. m. and 5:10 p. m.; 5:40 and 10:35 a. m., daily. Leave Chicago at 7:45 a. m., 2:10 p. m., 4:05 p. m. and 6 p. m. The 2:10 and 6 p. m., daily.

MACHINISTS HERE
APPEAR SATISFIED

There Are No Indications of a Strike in Janesville Shops—All Are Well Paid.

There seems to be very little danger of a machinists' strike in Janesville. All the factories are running full time and are paying good wages, and there is no reason why the men should go on a strike and tie up the manufacturing interests of the city.

The manufacturers of Janesville have always paid good wages and there has been very little trouble with organized labor in this city.

A large number of the men employed here are natives of the city. Many of them own their homes and have property interests that a strike would be a great damage to. There is no feeling of unrest among the men at present and they are satisfied with their pay and employers.

HORSE THIEVES
MAKE GOOD ESCAPE

Sheriff Maltress and Deputies Fail to Arrest the Guilty Parties.

The police have as yet found no trace of the pair of horses and the wagon stolen from H. L. Tripp last week. Mr. Tripp is almost certain that the team went through this city as he tracked them as far as the Five Points by the track made by one of the wheels of the wagon which was sprung and made a crooked track.

All trace of them seems to have been lost after they arrived in this city. Undoubtedly the officers were on a false track when they went towards Evansville. If the thief went out from town in another direction he gained a long lead on the officers.

COMMENCEMENT AT
THE HIGH SCHOOL

Gymnasium Being Cleaned Up and Decorated for the Exercises Beginning Tomorrow Night.

The gymnasium of the high school building has been a busy place today. Workmen have been employed in cleaning it up and the Juniors have been decorating it in preparation for the commencement exercises which begin tomorrow night. As has been customary, the nominal admission fee will be charged. The program for tomorrow evening will include one of the greatest scientific experiments of the age, producing an electric spark in a vacuum. This will be done in connection with one of the theses. One of the special features of tomorrow evening's program will be the anvil chorus. There will be the usual orations and theses.

GOOD ATTENDANCE AT THE CHURCHES

SUMMER GOWNS IN GAY COLORS
ARE AN ATTRACTION.

Two Magnificent Audiences Heard the Rev. Mr. Vaughan at the Baptist Church, Who is Establishing a Reputation as a Pulpit Orator-- In Other Churches.

The congregations in the city churches began to blossom out in the huge and beautiful bouquet which summer and its dainty gowns of many colors always brings together on Sunday mornings. Yesterday was a perfect day and the majority of the tall-made and sober hued gowns which have done Sabbath service for many months were left hanging in the closets, while handsome new fashions, filmy white gowns and dainty creations of the bewildering summer fabrics offered for feminine enhancement this season took their places.

Prudent matrons and maids, however, clung to warmer attire and most of the congregations presented a strange mixture.

Summer and winter costumes were strangely blended and in many instances young ladies in gowns so transparent that one caught the gleam of rounded arms and shoulders sat next to women in woolen gowns and heavy wraps who confidentially admitted that they still retained their heavy winter underclothing and were not uncomfortable. The summer girl and the winter matron eyed each other with a very evident pity and surprise.

Had Large Congregations
All the pastors preached to large congregations, especially in the morning, and Rev. Vaughan of the Baptist church was heard by two magnificent audiences, the one in the evening being larger than the one in the morning. He preached two able sermons, "The Revelation of the Cross" and "The Imperative Experience."

This newcomer is fast strengthening his hold on his own church and gaining popularity with outsiders. Sunday he gives additional proof of his forcefulness and power and of the fact that he is a great addition to the local influences that work for righteousness.

His large evening congregation was doubtless due in a measure, to the fact that there was no evening service at the Congregational church, Rev. R. C. Denison having gone to Fort Atkinson to preach the baccalaureate sermon for the graduating class from the high school and the service planned for the Congregational church having failed during the week.

In the morning Rev. R. C. Denison preached an eloquent sermon on "The Fellowship of Humanity," showing how every life influence, every other life in the universe not only morally and spiritually, but commercially as well, and that the only sensible policy is that followed by the missionary who seeks to uplift humanity.

At Court Street M. E. Church
At Court Street M. E. church there was a pleasing innovation at the evening service a short time during the preliminary services being devoted to a song service with D. D. Bennett as preceptor. The song books recently purchased were used and the service included several inspiring songs.

After the preliminary service, Rev. W. A. Hall preached a very helpful sermon, one of a series on the life of St. Paul. Last evening's sermon centered around incidents in Paul's life after he had gone through Macedonia and had come to Troas.

Rev. Hall said in his introduction as his reason for devoting several sermons to the life of Paul, that a consideration of a life so far in the past, among conditions so different from those of today, requires the side light of much explanation, historic and otherwise. The great danger of American life is hurry and lack of thoroughness. Connected study of the word of God is the skeleton of Bible knowledge. The hop, skip and jump method of Bible study is valueless. The laws of the word of God are coming to prevail more and more and the influences which oppose it are growing weaker. The word of God will burn up everything that is written contrary to its teachings. Paul's life was guided by love and the spirit of love, must prompt and guide all life which is to be eternal.

Two Thoughts Suggested
Two thoughts are suggested by Paul's sermon at Troas. He spoke for many hours, his sermon lasting until after midnight. Think of the people hanging on the word of Paul for hours and compare them with the people of today who will spend hours reading a questionable book or watching a bad play on the stage without thinking of the time but who "jump on" the minister who speaks for more than thirty or thirty-five minutes.

The second thought centers around the falling of the young man, the slave, from the upper window and the great joy of the people whom Paul proclaimed that the life was still in him. The word translated life is the same in the original that is used for soul and shows the two to be identical. The interest which these people showed in the slave, who was generally despised in those days, reveals one of the foundation principles of Christianity, interest in other people and their welfare. This explains

why slavery has died out in all Christian nations.

At Presbyterian Church
At the Presbyterian church yesterday morning seven new members were received into the fellowship of the church, all on the confession of faith. The communion service was observed, a short service at 10 o'clock preceding the regular church service. Rev. Henderson's sermon was preliminary to the communion service, his subject being "The Sinner and Christ."

In receiving the new members Rev. Henderson spoke briefly to each one personally and the service was a beautiful and impressive one.

New Organ Dedicated
At the First M. E. church the new pipe organ was dedicated. The church has purchased the organ which was formerly in All Souls church and it was placed in position in its new home last week. The First M. E. church has one of the best chorus choirs in the city and the new organ will be a great help to the singing. The chorus choir and the male quartet furnished excellent music at yesterday's services.

Edward Derby of Beloit is in jail awaiting a charge of horse stealing. He hired a livery rig, it is charged, traded horses and drove into the country where he was arrested.

Those who have had seats reserved for tonight's performance at the Myers Grand and have not called for them before six o'clock or they will be put into the general sale.

There will be a special meeting of Olive Branch Lodge, No. 36, A. O. U. W., at East Side Odd Fellows' hall tomorrow evening at 7:30 o'clock. All are requested to be present as business of importance will come before the meeting. By order of the master workman.

Lost—Black leather pocket book. Probably around C. & N. W. passenger station Friday evening. Book was silver trimmed with initials E. M. B. engraved. It was of particular value to the owner. Contained something less than \$5 in money. Finder will be liberally rewarded by returning it to Gazette office.

After staying out until ten o'clock Saturday night the jury in the case of the state of Wisconsin vs. William Byrne decided they could not agree on a verdict and were discharged by the judge. A new trial of the case will probably not take place this term.

In a wildly exciting baseball game played at Athletic Park on Saturday afternoon, the local traveling men were defeated by a score of 12 to 9, the winners being the U. C. T. team from Madison.

MISS LENA COLDEN LORRIN L. HILTON

Happy Marriage Solemnized This Afternoon at the Residence of Capt. Pliny Norcross.

This afternoon the marriage of Miss Lena Colden and Lorrin L. Hilton, both of this city was solemnized at the Forest Park home of Capt. Pliny Norcross, Rev. Robert C. Denison being the officiating clergyman. The wedding although a very quiet affair, was one of the prettiest home weddings ever seen in this city. The parlors were handsomely decorated with flowers and potted plants.

The happy couple were attended by Miss Daisy Hilton, sister of the groom, and Dr. George Fifield. Miss Margaret Doty was the charming little flower girl.

After the beautiful and impressive wedding ceremony which was witnessed by a small company of relatives and intimate friends, hearty congratulations were offered and then the guests enjoyed a sumptuous and appetizing wedding repast.

The bride has made her home in this city for about fifteen years and for the past five years she has been employed at the Norcross home, being held in the highest esteem by the members of the family and by all who know her. Not having a home of her own in this city, it was Capt. Norcross' pleasure that she should be married from the home which she has served so faithfully.

In consequence of his kind thoughtfulness, the bride had as beautiful a wedding as any girl could desire. She possesses the womanly qualities which will bring happiness over the home over which she is to preside. She is the fifth young woman whose employment at the Norcross' home has terminated at the marriage altar.

The groom is an energetic young man of excellent character. He has lived in this city for about ten years being an architect and carpenter. He will take his bride to a nicely furnished new home at Monroe where they will reside.

At the wedding this afternoon Mesdames S. B. Smith, D. W. Watt, E. P. Doty and H. S. Gilkey assisted Mr. Norcross in receiving the guests.

LAST TRIBUTE TO MRS. B. R. HILT

Funeral Services Held from the Home on Western Avenue at 2:30 O'clock This Afternoon.

The last tribute of honor and respect was paid to Mrs. B. R. Hilt this afternoon, funeral services being held from the home, 90 Western avenue, at 2:30 o'clock. There was a large attendance of sorrowing friends, the Woman's Relief Corps, Daughters of Rebekah and Eastern Star being present as organizations. Many Odd Fellows, Masons and Grand Army veterans also testified their deep respect for the departed woman by their presence.

The funeral sermon was preached by Rev. H. W. Thompson of Fond-du-Lac, formerly of this place, and in it touching tribute was made to Mrs. Hilt's many excellent qualities and especially to her loyalty and patriotism. The interment was in Oak Hill cemetery, the Daughters of Rebekah having charge of the burial service. The pall bearers included representatives from the three orders of whose auxiliaries Mrs. Hilt was an honored member. Those who bore her to her last resting place were Henry Rogers, L. M. Nelson, R. H. Griffiths, S. C. Burnham, Jerome Howland and B. F. Blanchard.

Miss Mary L. Bostwick entertained the members of a young ladies' euchre club handsomely at her home, 259 Park Place, Saturday evening. Six-handed euchre was played. Mrs. William Ruger, Jr., winning the prize. An elaborate luncheon was served.

MRS. O. H. FETHERS ELECTED PRESIDENT

Daughters of the American Revolution Named Officers at Meeting Held Saturday.

In connection with the meeting of the Daughters of the American Revolution held with Mrs. C. S. Jackman, who has served as regent for the past two years, Saturday afternoon, the following officers were elected for the ensuing year:

Regent, Mrs. Ogden Fethers; vice regent, Mrs. Wm. Eldredge; recording secretary, Miss Lizzie Cowles; corresponding secretary, Mrs. Wortendyke; registrar, Mrs. George Sutherland; treasurer, Mrs. Wm. Wheeler; historian, Mrs. J. T. Wright.

During the dweek a medal will be presented by the society to the pupil in the eighth grade of the public schools who has received the highest standing in American history for the year. The members of the local chapter have also subscribed quite a sum of money to be sent to the Jacksonville sufferers.

The State Bank of O'fordville, Wis., is responsible and asks a careful scrutiny as to its promoters. Is recommended by four governors and many banks. Pays four per cent. on six months and 5 per cent. on 12 months time deposits.

On page 2 J. M. Bostwick & Sons' offer several worthy suggestions.

...LATE TELEGRAPHIC NEWS...

JAMES A. HERNE IS DEAD

Actor and Playwright Passes Away at His Home.

ROSE FROM GROCERY CLERK.

Story of Early Struggles and Brilliant Victory of a Man Distinguished in His Chosen Profession—How He Made a Fortune.

New York, June 3.—James A. Herne, the actor and playwright, died at his home at 79 Convent avenue, in this city, at 5 o'clock p. m., of pneumonia.

Although it was as a dramatist that Mr. Herne's reputation was the highest, he had been an actor nearly twenty years before he thought of writing his own plays. He was born at West Troy, N. Y., in 1840, and of the sixty-one years since he passed forty upon the stage. "Hearts of Oak" did not come from his pen until 1878. His education was of his own getting and his training as an actor he received upon the stage itself. Born in a cottage and obliged to begin work for a living at an early age, he grew up a healthy, energetic boy. He was a clerk in a grocery store when his imagination rebelled at the surroundings of village life. His chance, when it did come, descended upon him in his own village. An actor of the day, Joe Webb, supported by a small company and two St. Bernard dogs, came to West Troy to play "The Dog of Montargis," a piece written about the story of Aubrey de Montdidier, the Peddler of Ghent. The actor who should have played the part of Macaire failed to appear. Herne learned of the need of the manager for an actor and volunteered. He not only did not break down, but went through the small role so creditably that he was engaged to continue in it. That was his beginning. He rose gradually. After three seasons managing a New York theater for James Fisk, Jr., Mr. Herne went to San Francisco. Herne wanted a play for himself, but he could not get one written. One day when talking the problem over with David Belasco the latter told him to give up trying to find an outside playwright and to construct the play himself. He said he would be willing to advise. The two set to work, Belasco planning some of the situations, Herne polishing, fitting and writing. The piece was finished, was named "Hearts of Oak," was given a trial production by the stock company and failed.

Herne determined that a production of the piece should be made in Chicago. He tried to get a leading theater and failed. The Grand opera house was not then in existence, but on its site stood a small theater or music hall, owned by John A. Hamlin. To him the proposition for "backing" the play was made, and, as a venture, was by him accepted. In the fall of 1879 the production was made. By Thursday of the first week the little house was turning away would-be auditors. A fortune was made by Mr. Herne. "Shore Acres" was written in 1891.

Captain Howgate Is Dead.
Washington, June 3.—Captain Henry W. Howgate, formerly signal officer in the United States army, died suddenly of cerebral hemorrhage at his home in this city. He was 67 years old.

Snakes Guard Miser's Cash.
Nashville, Ill., June 3.—John Rhode, an old recluse, who lived in a lonely hut in the southern part of the county, was found dead. There were evidences of foul play and the coroner and a number of citizens made an examination of the cabin, which resulted in the discovery of three big rattlesnakes coiled up in an empty barrel. The snakes were killed and underneath a bed of leaves, where they had been sleeping, an old tobacco pouch was found half filled with money. In another barrel two blacksnakes were found. It is believed that Rhode made the snakes his companions and that they guarded his money.

Decorated with Legion of Honor.
Chicago, June 3.—Robert J. Thompson, secretary of the Lafayette Memorial commission, has been promoted by the French government to the Legion of Honor of France in recognition of his services in securing the erection of the monument to the memory of the friend of Washington and the cause of American liberty.

The title conferred upon Mr. Thompson is that of "Officier de la Legion d'Honneur." The honor is conferred upon the American by direct action of the President of the French republic.

Dr. Payne Held in \$500 Bail.
Boston, Mass., June 3.—Dr. Summer Payne was arraigned in the Municipal court today charged with assault with intent to kill Peter L. Damm, a well-known music teacher, whom Payne declares he found in his home in company with his wife Wednesday evening when he unexpectedly returned home. Payne waived the reading of the warrant and the case was continued till tomorrow. His bonds were not increased, he being still held in \$500. Mrs. Payne and her daughter have left their home.

Starving Child Dies in Wood.
Stroudsburg, Pa., June 3.—The mys-

tery surrounding the disappearance of the three-year-old daughter of Frank Simpson of Tobyhanna was cleared today. The searchers found the body of the child in the woods three miles from home. Death was caused by starvation and exposure.

Famous Negro Dead.
New York, June 3.—William A. Williams, sacristan of the Roman Catholic church of St. Benedict the Moor, is dead. His funeral will take place tomorrow. The Herald says of him: The sacristan was known throughout the United States for his learning and literary attainments. It was the great object of his life to become a priest. His father was a slave, and lived on a plantation at Mount Vernon, adjoining the home of Gen. Washington.

Woman Suffrage Convention.
Minneapolis, Minn., June 3.—The delegates to the Woman's Suffrage convention met in the evening for a reception at the Park avenue residence of Mr. and Mrs. W. D. Gregory. The afternoon was given up to a session on organization, presided over by Miss Mary G. Hay. Dr. Frances Woods, Iowa, opened the subject, giving her experiences as an organizer. Under the heading, "Practical Work for Clubs,"

Belmont Mansion Passed to Wife.
New York, June 3.—Oliver H. P. Belmont has sold to his wife their fine residence, No. 67 Fifth avenue, north of Fifty-third street. Mrs. Belmont paid \$65,000 for the property, on which there is a mortgage of \$125,000. Mr. Belmont bought the house in March, 1899, and since then his wife has entertained a great deal there. The dwelling was formerly occupied by the City Club.

Decline to Help China.
Washington, June 3.—The United States, through the state department, has politely declined a request made by France and Russia that this government join with the other powers in guaranteeing a loan of \$337,000,000 for China so that empire may proceed to pay the indemnities settled upon by the several powers without loss of time.

Salute for Cardinal Gibbons.
Washington, D. C., June 1.—The commandant at the Brooklyn Navy Yard has been asked for a detailed statement in reference to the report that Cardinal Gibbons was given a naval salute and accorded undue honors on his visit to the navy yard. No reprimand or rebuke has been administered to the commandant.

78,303,287 Is Correct.
Washington, June 3.—The census bureau has made its final announcement of the population of the United States as recorded by the census of 1900. It is 76,303,287. A previous announcement, November 27, placed the population at 76,304,799, but, as stated at the time, this figure was subject to changes.

Employ 4-Year-Old Girl for Speech.
Cincinnati, O., June 3.—Madeline McHenry, a four-year-old orphan and a prodigy, has been engaged at \$100 to deliver an address for a grand lodge annual meeting. A special incident at the closing of the Knights of Pythias convention in Springfield was her selection.

THE GOVERNMENT OF PEKIN

Is to Be Transferred to Chinese Officials.

A DECISION BY GENERALS.

Heads of the Allied Forces Determine to Relinquish Gradually Their Control of the City—Wreckage Over a Famine Fund.

Pekin, June 3.—The generals of the allied forces, at a meeting just held, decided to transfer the government of Peking to Chinese officers gradually during June. The allies are making preparations for evacuating the city. Count von Waldersee, accompanied by his staff, will leave Peking tomorrow. Two special trains will run all the week, taking troops to Taku. The Germans are removing an extraordinary quantity of baggage, including Chinese carts, rickshaws, tables and chairs. Von Waldersee will, however, leave here temporarily nine skeleton battalions of 300 men each, which nearly equals the number of British troops here. The French are withdrawing from the province of Chihli. Nine thousand Japanese, 3,000 British and the Twenty-sixth Belochistan regiment left yesterday. The rest of the troops will remain until July, or until the court's return is certain, and evidence is given that the Chinese authorities are able to maintain order. It is certain that the simultaneous withdrawal of all the allies would tend to inflame Chinese conceit and endanger foreign interests in the northern provinces. Another meeting has been held to consider the question of the distribution of the fund raised by the Christian Herald for the relief of the famine sufferers in the province of Shensi. The missionaries have telegraphed to Chairman Arthur Smith at Tien-Tsin stating that the committee requires unrestricted power, and that the distribution of the fund by foreigners is impracticable, this being possible only through native officials. It also asks for funds to send missionaries to Shensi. The most credulous are of the opinion that if the funds are placed in the hands of native officials about 60 per cent of the money will reach the sufferers. Those who are best informed say that the officials, who resent the spirit of the donors, will steal fully 60 per cent of the money.

GREAT BRITAIN IS AROUSED.

Victory at Boers Have Greatly Angered the British People.

London, June 3.—Gen. Kitchener's account of the battle of Vlakfontein serves to light up public interest once more in the Boer war. Two facts stand out: First, the determined nature of the Boer assault upon an entrenched position, fifty miles from Johannesburg; and, secondly, the heavy losses suffered by both sides. This has been the first real engagement which has been fought for many months, and it is decisive proof that the Boers, when led by a cool and wary general like Delarey, can still offer strenuous resistance to British arms.

Details of this battle may indicate that Gen. Dickinson's force was surprised, and that the casualty list was run up to 174 in this way. But the Boers, in any event, were assailants, and were not repulsed without severe losses. The Boers are also reported to have fought with exceptional gallantry while in pursuit of Gen. Plummer's convoy. The natural explanation of the fighting is that one mine after another is opening up, the refugees are returning to Johannesburg in small groups and the Boers have been making desperate efforts to frighten them and to prevent resumption of industry in the gold belt. Vlakfontein was probably designed to be a loud warning to the refugees that the war had not ended and that Johannesburg was still an unsafe place of residence.

Italian Princess Born.

Rome, June 3.—Queen Helena was accouched of a daughter at 9 o'clock this morning. Both mother and infant are doing well. The princess will be named Yolanda Margherita. Amidst general congratulations there is considerable disappointment at the infant's sex, though the king is understood to have expressed contentment. Salutes are being fired throughout Italy. Besides receiving liberal pay and a pension the infant's nurse will get \$2,000 with the baby's first tooth, another \$2,000 when the child is able to speak and a similar sum when the little princess walks unsupported.

Kaiser Angers French.

Paris, June 3.—The toasts of the emperor of Germany to the French army and the response by General Bonnal have created an exceedingly unfavorable impression in France, and, in fact, in many circles the recent events in Berlin have aroused feelings of deep resentment. The Matin, in its evening edition tonight, says the French army wants none of the German glorification.

Anonymous to Choose for Man.
This used any phrase suggested for the purpose of the election of a man to the office of the city clerk.

JAPANESE GOODS.

AN ABSOLUTE FACT THAT GREGG'S COFFEES ARE THE BEST

Pan-American Exposition Company, D. S. Morgan Bldg., Buffalo, N. Y.

Buffalo, N. Y., Jan. 10, 1901.

C. D. Gregg Tea & Coffee Co., Chicago and St. Louis.

I enclose you contract for the supply of coffee for the Bailey Carting Company, at the Pan-American Exposition, to be held in Buffalo during the coming summer. In the selection of your coffee, in competition with samples submitted by a number of the largest Importers and Roasters in tea country, I have been governed entirely by the quality of the same. My experience with the coffee supplied to me during the past year or so by your house has been so uniformly satisfactory that I feel that I could do no better than to complete this arrangement with you. The amount of coffee which this involves will probably amount to as much or more than has ever been supplied to one consumer in the same length of time, and I congratulate you upon your enterprise in having secured this contract.

Very truly,
PAN-AMERICAN EXPOSITION COMPANY.

In Janesville and vicinity we are exclusive agents for the Pan-American Blend. We are now prepared to fill orders. Phone us.

O. D. BATES.

Court Street Church Block.

CLOTHING THE BABY

HOW TO MAKE LITTLE DRESSES,
LONG AND SHORT.The Newest Styles For the Wee Ones
and How an Outfit May Be Manu-
factured at Home—Pretty Summer
Garments.

[Copyright, 1901, by American Press Association.]

The tiny, newborn baby now has its little woven shirt, half silk and half wool and as soft as thistle down. Next to that comes the long woven flannel band, and this has tapes and buttons for fastening. Then comes the little absorbent diaper made of soft and flexible waterproofed material. Tiny knitted socks of the finest sephyr keep the mites of feet warm. After these come the "barrie coat." This is open down the front in the old way, but buttons fasten it, and there are armholes to keep it up. No pins are needed, and so the flannel petticoat is made in the same way as to the waist, and so is the pretty white nainsook one. These used to be made double. They are not now. And they hang loose, the flannel bandage being considered sufficient to keep the body firm. Then comes the long dress. This is of thin white stuff, the finest and best that can be afforded. This little dress is not over one yard long now, and the surplus length is put into a yoke and sleeves. The flannel shirt has long sleeves too.

Small close hoods of lace, silken lined, and a long elder down cloak made double and with long sleeves and a small knit veil for cold days complete the outfit of most babies now. This does not count the sleeping wrapper, which may be flannel or doubled outing flannel.

When the baby goes into short clothes, there may be a little more individuality. The short dresses and petticoats may be just simply cut down shorter. They are merely gather-

FOR THE LITTLEST GIRLS.

ed at the neck only and left to fall straight down. It takes two yards of cambric or any other white cotton goods to make a frock with deep hem, but no tucks, for a child of 6 months and on to 10 or 12 months. A little embroidery or, better still, crocheted edging is put at the neck and wrists. Tiny buttons at the neck in the back finish it. To cut this needs no diagram. The arm sizes are hollowed out and the three inch shoulders very slightly sloped and an inch taken out of the front at the neck. Then it is ready to gather and put the band on and sleeves in.

Those frocks where there is a yoke are quite as easy to make. The yoke may be cut after an old one, and it opens in the back always. From the yoke measure the length to the bottom. It needs two breadths, and two yards will make the whole dress. Nainsook costs but 12 cents a yard. Many ladies have cambric skirts partly worn, and such material is far better for the baby than new. These frocks may be trimmed or featherstitched, but so many are required to keep the baby clean and sweet that it is better to have more plain ones than fewer ones with trimming.

The only real difference in the outfit of the child of a year and that of the infant of a month is that the small one has long clothes. The older one has shoes and stockings instead of knit socks. The stockings, in winter at least, should be of wool and long and fastened with side elastics.

For summer for babies over a year and a half the new long waisted effects are suitable. To make such a frock take one yard and a half of nainsook or other fine cotton or linen lawn and cut it into two pieces and sew them together, and then lay clusters of fine tucks all around lengthwise, letting them end six inches above the bottom. Finish this with a row of embroidery or lace. Sew a berth at the top made of the material edged with the embroidery, and one row beneath that for sleeves. Between the clusters of tucks stitch rows of insertion. This is to come but to the low waist line. A soft ribbon sash is tied around the waist low down. A smaller bow is in the front of the neck. This little dress can be used for a model, and many variations can be evolved.

The newest style is to have the little frock either depend direct from the yoke or neck, without a waist, or to have the waist come down nearly to the hips.

Coats for such small children are made on the Mother Hubbard plan and should be warm as well as soft and light. For every day there is nothing to compare with a good quality of elder down flannel.

Army Deserter Lives on Grass.

Marion, Ind., June 3.—Samuel Potts, 24 years of age, of Osceola, Mo., who enlisted in the Thirtieth Volunteer Infantry to serve in the Philippines and then deserted, was captured here by the police. Henry Hall, employed by E. P. McClure on a farm adjoining the city, went to a barn to feed some stock and was attacked by Potts, who attempted to kill him with stones, as he thought he would arrest him. He had killed a pig with a stone and was preparing to roast it when discovered by the farm tenant. He said that he had subsisted on grass and vegetables for several days, as he feared to go to a house to request food.

Takes Measure of Ability.

Iowa City, Iowa, June 3.—"What are you good for?" is a vital question to every one. The psychograph, its inventor claims, answers the question definitely and scientifically. The instrument will be of especial value to employers who desire to determine as to the relative brightness and ability of applicants for positions. It is an invention of Dr. Carl E. Seashore, assistant professor of philosophy at the University of Iowa, who numbers among his recent inventions an apparatus for testing the correctness of voice pitch.

Most Carry All Transfers.

Terre Haute, Ind., June 3.—The Southern Indiana Express company, operating over the Southern Indiana railroad, secured an injunction against the American Express company compelling the company to accept transfer packages. The prosecuting attorney, Fred W. Beal, also filed suit against the American and Adams Express companies asking judgment for \$500 from each company for violation of the recent law in discriminating against the Southern Indiana Express company by refusing to carry transfer packages.

Flying Dutchman Is Dead.

Paris, Ky., June 3.—The noted race horse Flying Dutchman, the property of Clay & Woodford of this city, died yesterday of catarrhal fever at the stock farm of Ben Woodford. Flying Dutchman was a high-class stake horse and was considered one of the best in the west. As a 2-year-old he was bought by Pat Dunne from Col. W. L. Simmons of Lexington for \$15,000.

Luetgert's Son in Trouble.

Honolulu, June 3.—Arnold C. Luetgert, son of Adolph L. Luetgert, the sausage maker of Chicago who was convicted of murdering his wife, was fined in the police court for a brutal attack on Pearl Andrews and another woman last night. Luetgert entered the house of the women and handled them both very roughly, beating them and throwing them against the walls.

Oil King's Big Gift.

Chicago, June 3.—With the announcement of a gift of \$1,000,000 to endow a school for medical research in New York city and the fact that in Chicago free rein has been given Dr. Harper to buy land in the vicinity of the University of Chicago, John D. Rockefeller's name again has come into prominence as a benefactor of higher education.

Killed in Boat Explosion.

Pittsburg, Pa., June 3.—The towboat George S. Ross, owned by the Pittsburg Plate Glass company, was destroyed by an explosion near Tarentum, Pa. Captain Kelly, who commanded her, was killed. Three members of the crew were badly burned, one of them, the cook, it is thought, being fatally injured.

Indiana Has Small Gains.

Indianapolis, Ind., June 3.—The total school enumeration of the state, according to the report of the state superintendent of public instruction, just completed, is 757,526, an increase of 1,198 over the enumeration of last year.

Fear Drought in Oklahoma.

Kansas City, Mo., June 3.—Reports from many points in Missouri, Kansas, the Oklahoma and Indian Territories tell of long-continued absence of rainfall, which threatens to develop into a drought.

Safe Blowers Rob a Postoffice.

New Decatur, Ala., June 3.—The Athens Postoffice was entered by cracksmen last night and \$250 in money and \$700 in stamps stolen. The safe was blown open with nitroglycerin.

An Epidemic of Typhoid.

Williamsport, Pa., June 3.—An epidemic of typhoid fever prevails at Cross Fork, Potter County. Out of the 200 residents of the place sixty-five have been stricken with the disease.

Old Farmer's Insane Act.

Aurora, Ill., June 3.—Michael Ryan, aged 70 years, was arrested on his farm south of Maple Park, and is now in the county jail at Geneva charged with burning his own barn.

A FLAT FAILURE

That's what any man is when his nerves give out. He loses courage and strength to act. His mind gets hazy and his will gets weak. Energy and hope fade away. Success depends upon the nerves. One man succeeds because he has nerve-strength; another fails because he lacks it.

Palm Tablets

make men nerve-strong. This remedy has just the properties to give the nerve-weak strength, vim and energy. It will only build you up, but checks the strains which may be responsible for the weakness.

50 cents, 12 boxes for \$5.00. New book, free.

Wilcox Block. Janesville, Wis.

Horse Works a Pump.

Bucyrus, Ohio, June 3.—John Garberick has a pump at his barn where he waters his stock. One of his horses would take hold of the handle with his teeth and pump until he had sufficient water to quench his thirst. The other horses when thirsty would appeal to him and he would pump for them. The horse quickly wore out the pump handle, and Garberick put in a chain pump. The horse is now studying its mechanism, and frequently attempts to operate it.

Thousands Rush to Nome.

Seattle, Wash., June 3.—Seattle has had a record-breaking day in the Nome business. Four steamers, the Oregon, Valencia, Centennial and Humboldt, and two sailing vessels left for Nome, carrying over 1,800 passengers and 6,000 tons of freight, the Oregon's freight alone netting the owners nearly \$100,000. Tickets commanded a premium of \$40, the regular price being \$125.

Trust Closes a Glass Plant.

Clarksburg, W. Va., June 3.—The Lafayette Co-operative Window Glass Company plant closed down Thursday for the summer. The Lafayette is an independent concern and it is understood here that it received a handsome bonus from the glass trust to induce it to close by June 1.

Three Hunters Probably Drowned.

Geneva, N. Y., June 3.—Martin McGloin, Michael Neenan, and Ellsworth McLaughlin started to cross Seneca lake last night for their camp on the shore opposite Geneva. Their boat was found floating near the north shore this morning. It is believed they were drowned.

Buy Your Carriages Right

FINE
LOOKING
CARRIAGES
Are Not Always
Fine Carriages.

There's probably more humbuggery in carriage manufacture than in a great many other things one has to buy. Paint and putty will cover a multitude of imperfections.

The only safe way in buying carriages is to go to the deal whom you know to be reliable, or has a reputation for reliability. He must retain his reputation by handling reliable goods.

We pride ourselves on having gained such a reputation—and propose to maintain it. Come and see our stock of

RAIN HINDERS THE FAIR AT BUFFALO

June Will Witness the Largest Gathering of Newspaper Men Ever Assembled in America.

Buffalo, N. Y., June 3.—Weather and that of a very poor quality, is the principal topic at the Exposition. It has grown to be the subject of prayers and jibes, and everyone is heartily wishing for a reappearance of the sun, which has been visible just a few hours in eight days.

The rain has not kept visitors away to any great extent, though and it has been a wonderful help to the foliage. There has been an average attendance of 20,000 for all days.

The architectural gem of the exposition is the Temple of Music. It has a great golden crown-like roof, that is set out by the night illumination like a tiara of stars. Paint, so brilliantly used throughout the exposition is put on here most lavishly. The color scheme employs bright, sparkling colors mostly, like yellow, ivory and gold. There is a good deal of red and enough azure to serve the purpose of bluing on a wash day—to enhance the whiteness of the rest.

June will bring here one of the largest gatherings of newspaper men that ever assembled at one place in America. The arrival of the Pennsylvania Press Association with 250 members tomorrow will begin it and a culmination will be reached with the convening of the National Editorial association—300 strong—on the 16th. half head.

STEPS TO HEAL BOOTH BREACH

Reconciliation Between Head of the Salvation Army and His Son, Leader of Volunteers.

Cleveland, June 3.—After five years of rivalry between the leaders of the great religious movements, the famous breach between General William Booth, the founder and head of the Salvation Army of the world, and his son, Ballington Booth, head of the Volunteers of America, is to be healed.

I. D. Hazard, financial secretary of the colonization and settlement department of the Salvation Army of America, announces that secret negotiations are being carried on with a view to effecting a reconciliation between General William Booth and his son. He adds his belief that the breach between father and son will be healed.

Secretary Hazard is also authority for the statement that General William Booth will arrive in America on Sept. 1, after which he will make a tour of the country. The reconciliation between General Booth and his son will doubtless be effected during the visit of the former to this country.

EVIL EYE CLOSES SEASON TONIGHT

Performance Will Be a Sort of a Jollification and the End of the Season.

The "Evil Eye" Company closes its season's engagement with tonight's performance and according to a European custom, tonight's performance will be a sort of a jollification and will be the best of the season. When the company leaves the city tomorrow morning the most of the members will be bound for New York and Europe. The company arrived at noon today and is prepared to give the theatre going public the biggest and best show for the money ever seen in the city.

There are but very few seats left and the most of those are scattering. Indications are that the "Evil Eye" will not only play to a packed house but to standing room.

Offers Reward for Lynchers.

San Francisco, Cal., June 3.—Gov. Gage has offered a reward of \$5,000 for conviction of the Modoc lynchings, to be divided as follows: One thousand for each of the ringleaders and \$400 for each of others engaged in the lynching.

Shot at Sweetheart's Home.

St. Joseph, Mo., June 3.—Owen Logan, a young stockman of Arkoe, Mo., was fatally shot while calling on Miss Jessie Walker near Maryville by the young woman's father, A. E. Walker, last night.

\$1,000,000 for Nova Scotia Mines.

Albany, June 3.—The American Canadian Mining Company of New York city has been incorporated with a capital of \$1,000,000 to develop mining rights and properties in Nova Scotia.

Brewer Gets License to Wed.

Washington, D. C., June 3.—Associate Justice Brewer of the United States supreme court visited the city hall and personally obtained a license to wed Miss Emma Mat.

Woman Chokes Bulldog to Death.

Denver, Colo., June 3.—Mrs. J. U. Shultz rescued a little girl from the jaws of an infuriated bulldog by choking the canine to death.

Hardware House Burned.

Quincy, Ill., June 3.—Fire destroyed the Tenk Hardware company's building and stock, doing damage amounting to \$70,000.

CUBANS WILL NOT RESCIND ACTION

Platt Amendment Will Not Be Accepted in Any Deal with the United States.

Havana, June 3.—Washington advices regarding possible complications over the acceptance of the appendix to the constitution have caused some uneasiness among the members who secured its adoption, but the disposition is to wait official information. Inquiry showed that there is no probability that the convention would make further changes in the form in which acceptances was couched. Opinion is pronounced that such an attempt would disrupt the conservative forces, which succeeded in having the Platt amendment interpreted and adopted, and would place the radicals in full control of the situation. Most of the delegates who voted for acceptances say that the subject is concluded and the only thing left for the convention now is to frame an electoral law, or else to be dissolved by military authority and the status quo remain unchanged. They do not anticipate the latter alternative. Some of them criticize the reports that the convention was not expected to incorporate the substance of the interviews with Secretary Root, and say this criticism should have been formulated earlier, since such a purpose has been manifested by the convention since the delegates returned from Washington.

Nationalists Carry Havana.

Havana, June 3.—In the municipal elections Senator Gener, nationalist, was elected mayor, receiving 11,115 votes. Estrada Mora received 7,533 and Senator Garcia 3,211. In addition to the mayor the nationalists elected eighteen councilmen. The republicans have four members in the council and the democrats two. Some protests have been made about the results of the elections.

ROBBERS SET FIRE TO TEXAS TOWN

Flames Started by Safeblowers Completely Wipes Out the Village of Jasper.

Beaumont, Texas, June 3.—The little town of Jasper, capital of Jasper county, was entirely wiped out by fire. Seventeen houses, including every business house in the place and a number of residences, were destroyed. The fire broke out at 3 a. m. and in the absence of a fire department the town was at the mercy of the flames. Previous to the fire the postoffice safe and the safe of the county treasurer had been blown open and robbed. The conclusion of the people of Jasper is that burglars blew open these safes and then set fire to the town to cover up their crime and create an excitement which would afford them an opportunity to escape. The loss by the fire is estimated at \$100,000. It could not be learned what the thieves secured from the safes. As far as can be learned there were no lives lost and no one was hurt. The robbers escaped.

SEVENTY LIVES LOST IN FLAMES

Fire on the Isthmus of Tehuantepec Causes a Terrible Loss—On Coffee Plantation.

Oaxaca, Mex., June 3.—Further details of the great fire which raged on the Isthmus of Tehuantepec for several days have been received here. Over seventy people were unable to escape the rapid progress of the flames and were burned to death. The fire started on a coffee plantation, and, owing to the dryness of the vegetation, it was soon beyond control and wrought great destruction to growing crops. Many thousands of acres of coffee trees, bananas, orange trees and other tropical products were burned over and a number of plantation buildings were destroyed. Those who met death in the flames were, all families of plantation laborers who, being unable to escape the fire, perished in their huts. The fire burned for ten days and was finally quenched by a heavy tropical rain.
